

## MONUMENT

Erected In Honor Of An  
Indian  
In The Catholic Cemetery At  
Danville

C. C. Logsdon has just finished a huge cement monument which he will erect in St. Luke's Catholic cemetery in honor of Bighill Joe, an Indian. On the monument is a large bronze plate containing this inscription:

Bighill Joe  
An Indian Chief  
Of Kansas

Born 1820 Died 1890  
Bighill Joe was a chief of the Osage tribe and a great character. In describing an Indian, who has all the characteristics of a white man, no expression would better fit than to say he was a good Indian, before he died, and it was commonly said that the only good Indian was a dead Indian.

This chief was a Catholic, being brought up by the sisters of St. Mary's, Kansas. So deserving was he of having his memory commemorated that Mr. Logsdon thought it would be only proper to erect a monument in honor of him.—Danville Leader.

## VITAL WASHINGTON NEWS

TAVENNER, "WRITER AND THINKER," GIVES US THE FACTS AS THEY REALLY EXIST.

(By Clyde H. Tavenner)  
Washington, Oct. 8.—When a woman purchases \$10 worth of woolen dress goods, \$4.27 represents the value of the goods and \$5.13 the amount of the tariff.

This is because of the Payne-Aldrich ad valorem tariff of 105 per cent. Or in other words, on each \$1 worth of woolen dress goods imported, the Payne-Aldrich law levies a tax of \$1.05. The consumer must pay the \$1 value and the \$1.05 tariff, or \$2.05 for one dollar's worth of goods.

This is but one of a thousand illustrations that could be submitted to show how the tariff affects the cost of living.

Here is another sample illustration for the tariff arithmetic class, which is composed of some 90,000,000 American consumers, all of whom are more or less dissatisfied with the awful increase in prices:

A suit of clothes having an import price of \$10, and which costs an Englishman \$10 when ready to put on, all wool and tailor made, pays at the custom house an ad valorem tariff of 80 per cent or \$8 per suit, making the suit cost the American when it is put on \$18, disregarding transportation and retail profits.

Another comparison: An English woman carpeting a room 18 ft. square with ingrain carpet two ply would 36 yards at a dollar a yard flat, or would pay \$36. An American woman using the same carpet would pay \$23.76 tariff at the custom house, which would make the carpet cost her \$59.76.

### Why Prices Are High

The following table shows a number of common articles of consumption, the ad valorem tariff rate under the new Republican tariff law, the real value of the articles and the tariff additions on the basis of \$10 purchases.

Amount of tariff	Real value	Tariff
Sugar, 50.80 pct.	\$6.00	\$3.75
Glassware, 60 pct.	6.25	3.75
Window glass, 84 pct.	5.43	4.57
Soap, 46 pct.	6.48	3.16
Machinery, 45 pct.	6.89	3.11
Tinware, 45 pct.	6.89	3.11
Metal tools, 45 pct.	6.89	3.11
Stocks, \$1 doz., 88 pct.	5.31	4.59
Shirts, 60 pct.	6.25	3.75
Blankets, 107 pct.	4.83	5.17
Flannels, 40c a yd.		
144 pct.	4.09	5.91

### Progressive Not Republicans

Those who approve of the sentiments of such genuine progressives as Victor Murdock of Kansas will be disappointed if they expect that the Republican party proper has any intention of carrying out such ideas. This is made plain in the Republican text book just issued by the Republican congressional committee. The campaign book emphatically does not recognize insurgent republicans as republicans, and thereby tacitly serves notice to the public that if the next House is Republican the people need not expect the ideas of progressives to be carried out. The Republican text book, however, officially indorses sentiments of the Aldrich-Cannon-Guggenheim type of Republicans as being Simon-pure Republicanism. As the Democratic campaign book accepts the sentiments of many of the genuine progressive Republicans as being truly Democratic, it would seem that the surest way to secure progressive legislation would be by voting the Democratic ticket.

### Republicanism Is Cannonism

In spite of anything the progressives can do or say, Cannonism and Republicanism are synonymous. The record of the last Congress proves this beyond successful contradiction. Page 3490 of the Congressional Record shows that on March 19 a resolution was reported providing for un-

seating Cannon as speaker. Of the entire Republican membership only the following nine voted to unseat Cannon: Murdock of Kansas; Cooper, Carey, Nelson and Lenroot of Wisconsin; Lindbergh and Davis of Minnesota; Poindestox of Washington and Grooms of North Dakota. Thus it is indisputable that Cannonism dominates all but one twenty-fourth of the Republican party. This is the answer we get by dividing 219, the total Republican membership of the House, by 9, the number of Republicans who voted to unseat Cannon.

### Cannonism Bound to Rule

Even if every one of the genuine progressive Republican congressional candidates is selected, Cannonism will reign in the House of Representatives if that body has a Republican majority. As the regulars will outnumber the progressives in Republican caucus, "Uncle Joe" or some one satisfactory to the Old Guard will be nominated for the speakership. The only sure way to kill Cannonism is to deprive the Republican membership of Congress of the balance of power, and to replace a Republican president with a Democrat.

### Where and When?

"The Republican party," declares the Republican textbook, "stands for the imposition of such duties as will equal the difference between the cost of production at home and abroad, together with a reasonable profit for American industries."

It is true the Republicans promised such a revision in the 1908 platform, but it is safe to predict no Republican candidate for office will declare that the tariff was ever revised on that basis. All genuine progressive Republicans are on record as stating that the promise was ignored as completely as if it had never been made. Revision of the tariff on the basis indicated would have been a big downward revision, while the Republicans revised it upward by 1.71 per cent.

### Two Safe Bets

A \$5,000,000 ship subsidy grab and a central government bank are two good bets in the event of the next House of Representatives retaining its present Republican majority. If the House is Democratic it is an equally good bet that special privilege will be disappointed on both propositions.

### The Red Cross

The Geneva convention assembled in 1864 and the delegates passed resolutions that hospitals and ambulances should be regarded as neutral in time of war. Thus was the new worldwide Red Cross begun.

### Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular free.

## Veterans of Civil War Were Like Boys. Again

Photo by American Press Association.

While the veterans of the Grand Army of the Republic were at Atlantic City in annual encampment this year it was at times difficult to obtain a quorum for the sessions because of the desire of the old men to be "boys once more." The many attractions of the board walk proved too much for some of them, and the wheel chairs were in constant demand even to the extent of carrying two or more passengers at once. The photograph shows two of the veterans enjoying a ride that is said to have lasted most of the afternoon and even after twilight.

## MOTION TO LAY ON THE TABLE

When Governor Harmon sent a special message to the legislature last winter regarding the lobby scandal in which the session became involved, the Republican senate laid the message on the table as an "INTENTIONAL INSULT."

You will have an opportunity in November to vote to lay that kind of a senate on the table—and a Republican house with it. For in other respects, the Republican majority in the house was just as hostile toward Governor Harmon as was the Republican majority in the senate. Lay both on the table and give Governor Harmon the benefit of a Democratic legislature.

### Victory Should Be Complete.

It is not enough for good state government that Harmon, only, be elected; his election should be supplemented by the choice of a legislature which will back him up, hold up his hands, and give him earnest, active, loyal support in his efforts to rid the statehouse and public institutions of grafters. That Harmon will be re-elected is conceded by many, but the victory will be shorn of its fruits if an antagonistic legislature is chosen.—Coshocton Times.

For the settlement and payment of all bills, obligations and purchases, there has been, as yet, no other method devised in the business world to equal or take the place of the bank deposit and check system.

Modern business methods have perfected this arrangement to such an extent that more than 95 per cent of the business the world over, is transacted in this manner.

If you are still using the old carry-the-cash way of paying your bills, it's time you adopted the modern plan of business safety.
